# Visit Historic RITZVILLE

A Small Town With A Rich History

RITZVILLE WASHINGTON

*No tour of Washington would be complete without a visit to Ritzville. Settled in the 1880's, Ritzville was once the largest wheat shipping point in the world. Today it remains a community with a rich pioneer heritage.*

*Take a step back in time. Discover Ritzville's past with a walking tour of our downtown National Historic District.*

The Dr. Frank R. Burroughs home was built in 1889 and extensively remodeled in 1902 when electricity came to Ritzville. A collection of vintage clothes and original furnishing await your visit.

Ritzville's Railroad Depot Museum is home to a collection of turn of the century memorabilia. Train lovers, young and old, will enjoy our newly restored Northern Pacific caboose as well as the fully functional telegraphy equipment complete with telegrapher.

# Ritzville

The Heritage Research Center located in the basement of Ritzville's Carnegie Library is a great place to discover your Adams County family history.
